2 Equations, Figures and Tables

2.1 Equations

Include and number equations consecutively using a table as in (1). Punctuate equations with commas or periods if they are part of a sentence.

$$x^2 = \sqrt{\frac{x^3}{1+y}} \quad (1)$$

Be sure that the symbols in your equation have been defined before or immediately following the equation. Use “(1)”, not “Eq. (1)” or “equation (1)”, except at the beginning of a sentence: “Equation (1) is ...”.

2.2 Figures

Place figures and tables at the top and bottom of columns. Avoid placing them in the middle of columns. Large figures and tables may span across both columns. Insert figures and tables after they are cited as **Figure 1** in the text.

Figures are printed in grayscales. Please ensure that graphs are distinguishable without their colours. Please include Figures as .emf or .png files. Author photo-graphs, colour, and grayscale figures should be at least 300dpi.

Referencing a table is similar to a figure and is done like **Table 1**.
